

Dear Anna,

A while ago you drew a picture of a Unicorn and told me you wanted to sew it. We put your plan on the sewing trolley and finally today we got to it! Sometimes there is so much happening at Kindergarten I can't always get the sewing machine out. You chose your fabric and away we went! We were given a wonderful hand sewing machine. You turned the wheel and I guided your Unicorn through the machine. You had very clear and fabulous design ideas about how you wanted your Unicorn to be. You thought of every detail! You decided she needed a mane and a tail and yes of course a big horn on her head.

When you had finished sewing your unicorn you took it to the hot glue table and stuck some eyes on. Wow, what a wonderful unicorn you made; well worth the wait I think! Your Mum was AMAZED when she came to pick you up!

What learning is happening here?

Anna you have fabulous ideas and love to create! **You are an artist!** And, you really put a lot of **effort** into your work! You have super dispositions for learning that will serve you well in all sorts of different learning domains!

I wonder what your next amazing project will be???

Love
Julie
